

Lakies Weekly Grade 7 Task List

Hey Gators, please find your tasks to be completed this week.

Week of: March 25 - 27

Language Arts:

In L.A. this week, you will only be responsible for to things every day. This may change week to week. For now, please work on the following from Wednesday-Friday;

- 1) Minimum of 30 minutes of reading. If you want to stay sharp, read more!
- 2) One journal entry 350-500 words.

Instructions for finding Sora app and submitted journals can be found on Teams.

Social Studies:

Access your S.S. Class Pattern in TEAMS

Wednesday: Read pages 146-152 in your textbook (The chapters can all be found in the FILES tab at the top, as well as a copy of the glossary). Complete pages 1-2 in workbook.

Thursday: Complete pages 3-5 in your workbook.

Fri: Complete pages 6-7 in your workbook.

Note: This is only a suggested schedule for you to stay on track. You should have pages 1-7 completed by the end of this week. ** We HIGHLY RECOMMEND you create a calendar to keep track of all your coursework.

Wellness Challenge of the Week

This week we are sending out an optional challenge to our Gators to write a note or letter of gratitude to all our health care workers, other service providers and unsung heroes who are all serving the community in a time of great need. Please email your letters to: Jennifer.MeltingTallow@lethsd.ab.ca by Friday, March 27, 2020. Happy writing Gators!

Adjusting to new routines can be overwhelming and we just want to make sure you are penciling in some time for your own self-care. Check out the following link for 'Ways to Wellness' from Alberta Health Services: <https://youtu.be/4ju2G3KtKNA>. Stay tuned for weekly challenges, tips, tools and resources!

The Wellness Team

Lakies Weekly Grade 7 Task List

Hey Gators, please find your tasks to be completed this week.

Week of: March 25 - 27

Math:

We're starting off slow this week folks, so not tons of math coming at you yet.

1. Access Microsoft Teams
 - "Math 7 – GENERAL" and "Mathematics 7A (or B, C, D, E)"
 - Explore and look around the tabs and features of Microsoft Teams
 - Check out the files and "Class Materials"
2. In your pattern specific Team (Mathematics 7A/B/C/D/E) there will be **three** (3) short assignments to complete this week. Make sure you click "Turn In" when you're done each one.

Science:

In science this week, I would like you to work on something EASY! To train everyone in the new TEAMS format, please go to your Science Team by pattern (email me if you forgot your pattern!)

Click on Files, and then 'Workbook Unit 4-Topic 1'. It has been a couple of weeks, but you should be able to answer many of those questions from memory and our class discussions. The digital textbook is in FILES as well as the NOTES.

I will send out an answer key at the end of the week, so this is for practice. We are just figuring out how to 'grade' things and where everybody is at. So for now, this is to help everyone keep up with the material. Love you science nerds! :0)

Options Activities:

Here is a tutorial on some dancing for those interested: <https://youtu.be/JYoGP-fTak>

Also, check out your **Options Activities** classes and **PE Classes** on Teams for more great ideas.

Wash your hands!

Go outside!
