

Lakie's Weekly Grade 7 Task List

Hey Gators, please find your tasks to be completed this week.

Week of June 8-12th

Language Arts:

Hey Gators!

This is your last L.A. assignment for the year. For this last task, you are asked to complete a final writing assignment. There are two options: a paragraph written final and an essay written final.

YOU ONLY HAVE TO DO ONE. The paragraph written final is the expected output for the end of grade seven. However, if you consider yourself a strong reader, writer, and are up to date with current events,

I encourage you to try the essay final. Find the assignment on teams for more details.

Science:

This week in science you are wrapping up YOUR VERY last topic in Science 7. I must admit, I can't believe we are here, but I am excited and hope you are too!

I will post the assignment in TEAMS. It is shorter than most of the ones we have done because there is less information in there. We will be doing Unit 5-Topic 4 this week.

Topic 4 includes the following ideas:

The fossil record provides evidence of Earth's changes over time.

4.1 Tracing Evidence of Geologic Change Using Fossils

4.2 Methods Used to Interpret Fossils

4.3 Geologic Time

Next week is your last week! You will have a final assignment.

Don't worry, I will make it simple but also reflective. 😊
